

Clinical Effectiveness

Clinical Pathways

BY KELSEY SPACKLER DNP, APRN-NP, CPNP-AC/PC

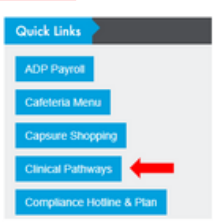

Welcome to the first Clinical Effectiveness Monthly Newsletter!

Introductions

- Kelsey Spackler - Clinical Effectiveness Program Manager
 - Working primarily on clinical pathways and eventually clinical quality improvement
- Abby Vipond - Clinical Effectiveness Program Coordinator
 - Working primarily on IPSO along with clinical pathways
- Melisa Paradis - Director of Quality & Patient Safety
- Dr. Bridget Norton - Chief Quality & Safety Officer

Pathways in Quicklinks

- There is a new easy way to access Clinical Pathways in the quicklinks on the right side of the intranet home page)
- You can still access it under the "Healthcare Professionals" tab as well with a couple more clicks

2022 Updated Pathways

- Otitis Media (Acute) outpatient clinical pathway has been updated
- Acute Covid-19 General Recommendations Pathway was added
 - MIS-C pathways also found here

New Pathways in Process

- Appendicitis Clinical Pathway
 - Currently working on finishing defining metrics to measure
- Febrile Infant Clinical Pathway
 - In final stages of completion and final approval
- Spinal Fusion Clinical Pathway
- Constipation

Pathways Updates in Process

- Asthma Inpatient and ED
- Concussion
- Pharyngitis
- Heated High Flow
- Urinary Tract Infection (Febrile)
- Suspected Physical Abuse
- Suspected Sexual Abuse

Clinical Pathways in EPIC

- Soon there will be a pathways link in EPIC, similar to this

Have an idea for Clinical Effectiveness or Clinical Pathway?

Reach out to Kelsey Spackler at kspackler@childrensomaha.org AND check out our new webpage (linked below)
